

Baseball Bump Cap

Baseball Bump Cap in Royal Blue

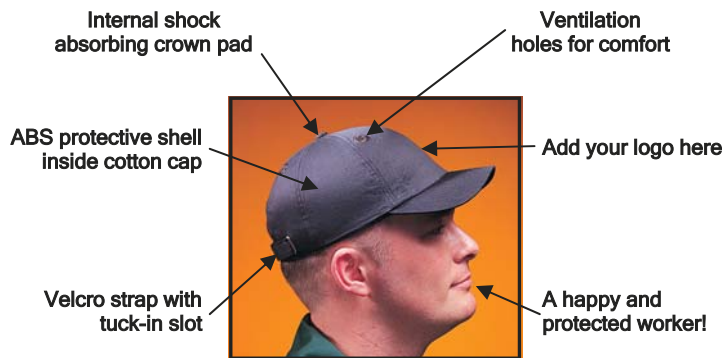

CAP 2000 BASEBALL BUMP CAP

The MPS Centurion Baseball Bump Cap provides lightweight head protection while doubling as a fashionable, comfortable piece of work wear. The look and feel of the Baseball Bump Cap makes it more appealing for employees to wear than conventional, plastic bump caps.

The design, available in six colors, incorporates an ABS protective shell inside a cotton baseball cap. The shell can be removed allowing the cap to be laundered. For added comfort, meshed ventilation grill holes provide airflow and a high level of ventilation. An adjustable, tuck-in Velcro strap means one size fits all. The design and shape of the cap and the internal ABS inner shell ensure that the Bump Cap fits securely and comfortably over long periods of wear.

Encourage your personnel to wear the protection they need by providing head protection that is stylish and comfortable.

IMPORTANT NOTE: The Baseball Bump Cap can be used in environments where there is a risk of minor bumps or scrapes to the head. It is **NOT** to be used as an industrial safety helmet.

Baseball Bump Cap

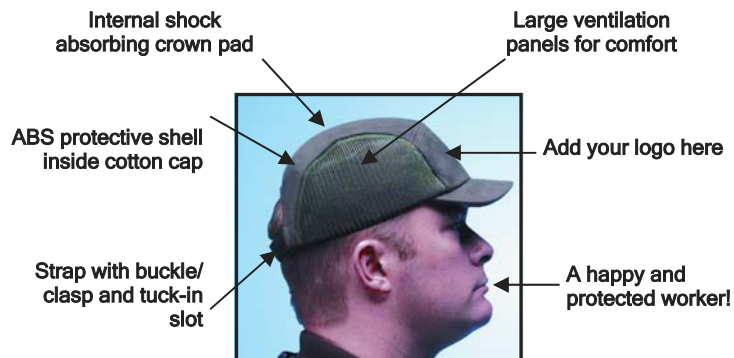

Cool Cap BASEBALL BUMP CAP

The MPS Centurion Baseball Bump Cap provides lightweight head protection while doubling as a fashionable, comfortable piece of work wear. The look and feel of the Baseball Bump Cap makes it more appealing for employees to wear than conventional, plastic bump caps.

The design, available in five colors, incorporates an ABS protective shell inside a brushed, cotton baseball cap. The shell can be removed allowing the cap to be laundered. For added comfort, meshed ventilation panels on each side provide maximum airflow allowing a high level of ventilation. An adjustable, tuck-in strap with buckle/clasp means one size fits all. The design and shape of the cap and the internal ABS inner shell ensure that the Bump Cap fits securely and comfortably over long periods of wear.

Encourage your personnel to wear the protection they need by providing head protection that is stylish and comfortable.

IMPORTANT NOTE: The Baseball Bump Cap can be used in environments where there is a risk of minor bumps or scrapes to the head. It is **NOT** to be used as an industrial safety helmet.
